About Me

Software Developer and 2024 BCA graduate specializing in building scalable, high-performance web applications. Experienced in developing pixel-perfect front-end interfaces, **integrating backend services**, and **optimizing Core Performance**. **Proficient in React, Next.js, Supabase, and SQL**, with hands-on experience in **API integrations, payment systems, and real-time workflows**.

Skills

- **Testing Tools:** Manual, UI, Functional, API Testing, Bug Life Cycle.
- **Technical Skills:** Javascript, Typescript, React Js, Next Js, GSAP, Tailwind Css, SQL, Figma, HTML, CSS, Redux.
- **Tools & Frameworks:** Three Js, Appwrite, Supabase, Redux Toolkit, MongoDB, Express Js, PWA, Postman.

Education

Intermediate, Dr. Rizvi Learners' Academy, Jaunpur June 2019 – June 2020

- Percentage : 65%

Graduation, Veer Bahadur Singh Purvanchal University, Jaunpur June 2021 – June 2024

- Percentage : 71%

Experience

Full Stack Developer, Kreeya Design – Noida Feb 2026 – Mar 2026

- Developed and deployed multiple full-stack client websites from scratch, **delivering 90% Performance, 95% Accessibility & Best Practices, and 100% SEO scores** in Google Lighthouse audits.
- Optimized Core Web Vitals (LCP, CLS, INP) by **eliminating render-blocking resources, implementing lazy loading, code splitting, and asset optimization** to **reducing page load time by 40%** and **improving Lighthouse performance from 65 to 92+**.

Software Development Engineer -1 (SDE-1), KnockHere Technologies – Gurgaon Nov 2025 – Jan 2026

- Built end-to-end development and production stabilization of a four-application food delivery ecosystem (Admin, Vendor, Delivery Partner, User), **improving system reliability and reducing order sync failures by 30%** and **ensuring seamless real-time order synchronization** across platforms using Supabase, **optimized SQL queries**, and role-based access control.
- Integrated **WhatsApp Business API** for automated vendor order updates and **implemented Razorpay Webhooks** for secure payment validation; managed complete testing (Manual/UI/API), **Git workflows**, and deployment documentation to ensure scalable, production-ready releases.

Web Developer Intern, KnockHere Technologies – Gurgaon April 2025 – June 2025

- Designed and developed the complete frontend for two production-grade websites, implementing responsive UI components, data-driven dashboards, and interactive visualizations using modern React-based workflows.
- Integrated Supabase backend using PostgreSQL queries to fetch and aggregate large datasets, enabling dynamic dashboards and map-based visualizations for real-time insights across two production websites.

FrontEnd Developer Intern, Medius Technologies – Mumbai Mar 2025 – Sep 2025

- Worked on frontend development by consuming backend APIs provided by the team, transforming and displaying data through multiple UI patterns to deliver clear, user-friendly interfaces.

Next Js Developer Intern, Across the Globe (ATG) – Bangalore Dec 2024 – Mar 2025

- Designed and implemented scalable UI components and contributed to website architecture planning, improving usability and development efficiency for the product team.

FrontEnd Developer Intern(Lead), KhanaDotCom – Pune, Maharashtra June 2024 – Dec 2024

- Contributed high-quality UI design and provided strategic guidance on website structure.

Projects

XMeals - (Food Delivery Platform)

- A production-ready food delivery platform with secure authentication, dynamic cart and checkout system, order lifecycle management, and real-time order tracking etc.

Tech Stack: React.js, Tailwind CSS, Supabase, Node.js, Express.Js, Whatsapp Business API, Razorpay, Webhook.
